**ENERGIES INDIA PVT LTD**

"Let's Shine Together"

# Let us Shine Together

## **ABOUT US**

Founded in 2016, Samvidyut Pvt. Ltd. Solar is dedicated to advancing solar energy solutions for Residential, Commercial, Agricultural, and Industrial applications. Our mission revolves around making solar energy accessible and affordable for all. By managing costs effectively and using components from Tier 1 and 2 manufacturers, we ensure high-quality and cost-effective solar solutions, distinguishing us in the renewable energy industry.

## **OUR VISION**

Our vision is to uphold dedication and customization in all projects, reflecting our commitment to quality and customer satisfaction.

## **WHAT WE DO**

We specialize in designing and developing various solar power solutions, including Grid Connected Solar Rooftop Projects, Off-grid Solar Plants, Surface/Submersible Solar Pumps, Solar Street Lighting Systems, and Installation & Commissioning Services.

## **INTRODUCTION**

Samvidyut Energies Is Committed To Unlocking The Potential Of Solar Energy, Aiming To Democratize Its Access And Affordability. Through Meticulous Cost Management And A Dedication To Quality, We Stand Out In The Dynamic Renewable Energy Industry. For The Same Are Company Has Done A Technical Collaboration With Onix Renewables Limited India.

# Sustainable Foundations for Solar Success

## Our shared infrastructure ensures:

- Land preparation for an optimal foundation, including cleaning, compacting, and grading.
- Thorough soil investigation, contour drawing, and earthing resistivity test reports for informed construction.
- Grid connectivity permissions for systematic power evacuation to the nearest substation.
- Robust power evacuation facilities, including transmission lines and right-of-way (ROW) for streamlined operations.
- Sustainable water sources to meet project needs.
- Secure land boundaries with fences, security cabins, and on-site toilets for safety.
- Security measures such as cameras, peripheral lighting, and fire extinguishers for safety compliance.
- Real-time environmental data through a weather monitoring system.

## Common Park Operation & Maintenance Efficiently Sustaining Your Investment

**Our comprehensive common park operation & maintenance includes**

- SCADA with monitoring capabilities.
- Cloud storage for efficient data management.
- Regular land cleaning and park lighting power maintenance.
- Upkeep of firefighting equipment, shared fence, and CCTV.
- Maintenance of evacuation lines, substations, control rooms, and switchyards.
- Water storage tank upkeep, road maintenance, and security measures.
- Aux power consumption and billing services.
- Park infrastructure insurance for comprehensive coverage.
- Staffing for security and maintenance, including pickup vehicles.

## Solar Plant Operation & Preventive Up-Time Maintenance Ensuring Reliability in Every Ray of Sunshine

1. Daily life cycle energy production monitoring.
2. Real-time data collection and diagnostic testing for accurate predictions.
3. Staffing for efficient plant operation and preventive maintenance.
4. Module and inverter cleaning, with regular checks for insulation.
5. Frequent maintenance of thermal-based components.
6. Yearly service of HT side equipment and effective warranty management.

## Join the Solar Revolution with Samvidyut Energies

At Samvidyut Energies, we are committed to delivering sustainable, reliable, and cost-effective solar

Solutions tailored to meet your energy needs.

### Some offer Solar Ground Mounted Projects In Year 2023-24

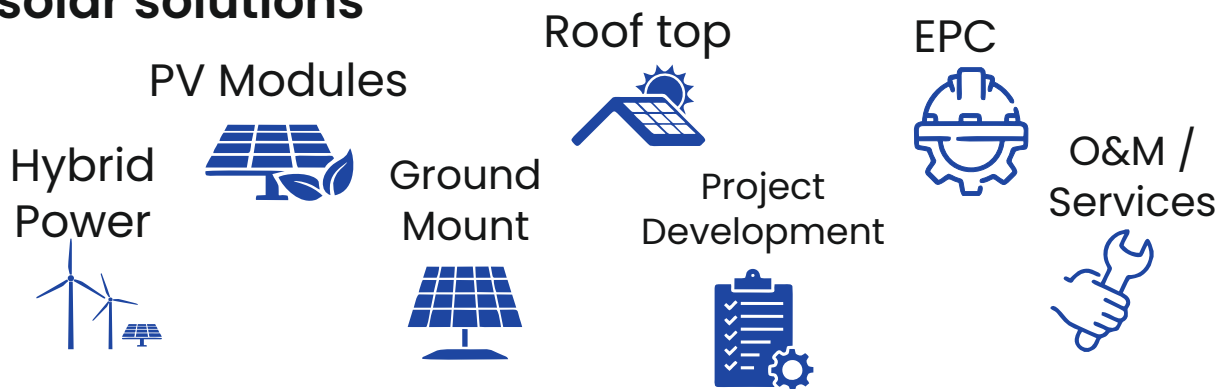

Sr.No	Awarded by	MW Capacity	Start Date

## MARKET LEADER IN RENEWABLE SECTOR

- India's only EPC company providing end-to-end solution in a simplified way.
- Dedicated teams for Land WRD Design & Engineer, Execution and O&M.
- Customized design for maximum resource Utilization.
- Quality & Safety assurance with timely project delivery.
- Pre&Post commissioning support by technical team.

### Integrated solutions Supplier offering complete solar solutions

#### Achievement

**52 MW**  
 India's Fastest Hybrid Project Commissioned in **6 month**  
 -----  
**June - 2023**  
 -----  
 Gujarat, India.

#### Geographical Presence

Pan India Presence  
 -----  
**8 States**  
 -----  
**10 Offices**  
 -----  
**100+** Channel Partner  
 -----  
**1000+** Team Member

#### Association

MOU of **19250 CR**  
 (Solar & Hybrid Projects) with Govt. of Gujarat  
 -----  
 MOU of **400 CR**  
 Solar Projects with Govt. of Uttar Pradesh
